

ENTRY DOOR PULLS – GENERAL INSTRUCTIONS

FITTING INSTRUCTIONS:

NEW DOOR PREPERATION:

1. Always check that your template is the correct one for your lock and check that it is printed to scale with a ruler.
! Template is located on rear of Door Pull Packaging.
2. Line up the template with your desired height and width on the door face.
3. Drill the (2) holes for the Thru-Fix bolts.
! Drill holes from both sides of the door to prevent door blowout.
4. Feed Brass Washer onto Thru-Fix bolt then feed the Internal Handle black mount cap onto Thru-fix bolt.
5. Mount External Handle by bolting handle through door and fasten.
! Only use the white plastic washers if mounting to glass.
6. Mount Internal Handle over the Brass Washers and fasten using grub screws.
