Environmentally friendly

CO6 / TIGER COVE
Infinity™ grooved, double sided profile,
(140 x 23 mm)

Longer lasting and better looking.

Infinity[™] composite decking is tested and proven to outperform wood and timber in even the harshest weather conditions. This revolutionary co-extruded bamboo composite range uses award-winning Eva-Last[®] capping technology to withstand all that Mother Nature has to throw at it. Rest assured that with *Infinity*[™] you're getting the best composite decking available.

RANGE OF SOLID, GROOVED AND NON-GROOVED PROFILES FOR DECKS & SCREENS.

DECK BOARD FINISHES

Wood Grain (L)

Smooth Bark (QR)

SCREEN BOARD FINISH

Brushed (R)

Infinity[™] grooved and solid composite deck boards are reversible to give you more choice in a single product. Find different natural finishes on either side of the decking board to satisfy your specific style and application. Complementary and interchangeable colours are available to maximise your design options, provide more flexibility and help make your home better.

Available in
 140 x 23 mm
 90 x 23 mm
 (Only available in NSW)

GROOVED BOARDS

Infinity[™] co-extruded composite decking available in two sizes.

Dimensions	90 x 23 mm (5.4 m length) Only in NSW 140 x 23 mm (5.4 m length)
Weight	2.42 kg per metre (90 x 23 mm) 3.86 kg per metre (140 x 23 mm)
Joist spacing	450 mm centre to centre
Fasteners	HULK Halo clip and screw, 25 per square metre (90 x 23 mm) 16 per square metre (140 x 23 mm)

Infinity[™] grooved boards are designed to be used with HULK hidden deck fasteners, leaving a clean and neat finish. The clip system secures the boards in place while allowing for the natural expansion and contraction of composite.

PROFILE COLOURS

NON-GROOVED BOARDS

Infinity[™] co-extruded composite decking available in two sizes.

Available in
 140 x 23 mm
 90 x 23 mm
 (Only available in NSW)

Dimensions	90 x 23 mm (5.4 m length) Only in NSW 140 x 23 mm (5.4 m length)
Weight	2.51 kg per metre (90 x 23 mm) 4.01 kg per metre (140 x 23 mm)
Joist spacing	450 mm centre to centre
Fasteners	HULK CDS screws, 50 per square metre (90 x 23 mm) 30 per square metre (140 x 23 mm)

Infinity[™] non-grooved deck boards are solid, square-edge profiles. They are best installed using HULK top fixing screws, available in various colours to match the selected deck board. These double sided boards offer two different finishes. One on each face to provide extra design options.

SCREEN
70 x 16 mm

SCREEN BOARD

Infinity[™] co-extruded composite screening

Dimensions	70 x 16 mm (5.45 m length)
Weight	1.36 kg per metre
Span	1200 mm when fixed to 3 or more supports 900 mm when between 2 supports
Fasteners	HULK CDS screws, 25 per square metre

The *Infinity*[™] screen or fascia board is a thin, lightweight composite profile. This double-sided board offers the R finish on both faces of the profile to create a neat aesthetic for cladding or screening. HULK top fixing screws securely fasten the boards in place and are available in colours to match the composite boards for a seamless look.

HULK FASTENERS.

FASTENED, FOR LIFE.

Corrosion resistant

Neat surface finish

Easy torque control

FASTENERS

HULK FASTENERS™

Eva-Last® has developed a range of fasteners that thoroughly complement our composite products to ensure the stability and longevity of your deck. HULK fasteners™ are specially designed to securely fasten the deck boards to a substructure, but can also be used in other wood or steel fixing applications. The coating employed for our HULK fasteners ensures the fixing system supports your deck through out its lifespan.

HULK FASTENERS				
Image	Colour	Bits	Material	Units
 <p>HALO CLIP</p>	Black	N/A	Stainless steel 430	125 & 350 Approx coverage (90 x 23 mm): 30 per m ² (140 x 23 mm): 18 per m ²
 <p>SCREW FOR TIMBER</p>	Black	1HTX (II)	Stainless steel 305	
 <p>SCREW FOR METAL</p>	Black	1HTX (II)	Stainless steel 410	

HULK fasteners™ were created to ensure Eva-Last® decking products would have an equally durable and long lasting fastener solution. Given the 10 to 25-year warranty Eva-Last® decking offers, an equally reliable fastener was necessary to create a complete decking package. It had to be able to stand up to the toughest of weather conditions gracefully and sustainably.

Treasure a greener tomorrow

MADE WITH SOLAR ENERGY

Intertek

Eva-Last® provides superior alternatives to timber for a greener future.

Eva-Last® is a globally trusted brand known for its durable and environmentally-friendly product range. We offer ultra-low maintenance and highly weather resistant composite alternatives to timber, reducing the impact of global deforestation.

- *Made from recycled materials*
- *No toxic chemicals*
- *No trees felled*
- *Reduced impact on landfills*
- *No staining or varnishing*
- *Reduced global footprint*
