

# BOXSPAN<sup>®</sup>

## STEEL FLOORING SYSTEMS

### Boxspan flooring system makes building easy on any site

WITH GROUND FLOOR AND DECK SOLUTIONS FOR ELEVATED HOMES, SLOPING SITES AND BUSHFIRE AREAS

**The Boxspan steel flooring system is so quick and easy, it is just as popular with first time owner builders as it is with tradies.**

Every Boxspan floor is individually designed, cut to size and labelled to match the working drawings. Just grab a screw gun and follow the plans.

The Boxspan steel flooring system is the modern alternative to timber bearers and joists:

- Simple and quick to install
- Fantastic spanning capabilities
- Straight and true to size
- Galvanised coating inside and out
- Adjustable steel EZI Piers
- Bearers and joists cut to size - no wastage

The Boxspan floor system is designed and manufactured by Spantec Systems. With over 25 years of experience, Spantec strive to make the best and easiest floor to assemble, making the first stage of your construction very easy.
