3. Roof Colour

*Equivalent colour names are trade marks or registered trade marks of BlueScope Steel Limited and used only for comparison. Colour and finish swatches are provided as an indication only and may not be an actual representation of colour or finish. We recommend checking your chosen colour and finish against an actual sample of the product before purchasing. Full colour range is available on Spacemaker roof panels upon request. Please refer to <https://versiclad.com.au/downloads/#coloursandfinishesinformation>

3. Accessories

Type	Qty.	Type	Qty.
Spacemaker Foam Infill (Pair: Front & Back)		Twinwall Sealer Tape (50m Roll)	
Rivets, White - 100 pack 3.2mm dia x 9.5mm		Stitching Screws - 50 pack Surfmist Storm-Tite 25mm	
Aluminium T-Bar White - 40 x 50mm	4m	Silicone: Clear/White (Please Circle)	
	6m		
Spacemaker Accessory Bag: Foam Infill Pair 35 x Stormtite Stitching Screws 60 x Rivets 1m Twin- wall Sealer Tape			

What you need:

- Fibreglass profiled top strip (4m, 6m & 8m only) - cut to match overall top sheet length, if required
- Twin wall bottom diffuser ceiling strip (4m, 6m & 8m only) - cut to match ceiling length, if required
- T-bar aluminium extrusions (4m & 6m only) - require 2 x T-Bars per light strip, either side of bottom diffuser strip
- Twin wall seal tape - require 460mm for each Skylight
- Foam infills (Spacemaker/Versalink 1000 = 2 piece set per skylight, Corrolink 1000 = 1 piece per skylight, cut to size onsite)
- Stormtite Screws - fixed through profile/crest at 600mm centres, along both sides of the fibreglass profiled top strip
- Blind Rivets - fixed through T-Bar at 300mm centres
- Silicone - run bead of silicone along top of horizontal section of T-Bar prior to pressing Twinwall into place and along Z Flashing prior to pressing foam infill into place

Please request and review engineering specifications prior to ordering skylights
